PREFACE

Rodrigo “Digong” Roa Duterte, popularly known as PRRD or the 16th Philippine President, has been a major figure in Philippine politics since 2016. As one of the strongest Philippine Presidents in modern times, Duterte has broken many precedent and changed the dynamics and political landscape of the country in an unprecedented manner. His many unique policies and initiatives have earned him rave reviews and widespread popularity, making him a real marvel and source of admiration worldwide.

The Bibliography of President Duterte

This bibliography of former Philippine President Rodrigo Roa Duterte, usually referred to as "PRRD" or "Digong," includes entries spanning his term in office. The compiler decided to divide this Bibliography into three parts as a series due to the large amount of bibliographic entries in PRRD. This functioned as the PRRD Bibliography of NLP's Part II.

The bibliography of President Duterte is rich and abundant, with a lot of material covering his tenure and important policies as Philippine President. Aside from books, it also includes articles, journals, dissertations, speeches, conferences, interviews, videos, and a lot more. These materials cover different areas such as economy, politics, security, diplomacy, foreign relations, human rights, development, health, infrastructure, environment, and government services. In addition, the bibliography also covers Duterte's most controversial initiatives, such as the war on drugs and the Philippines' compliance with international treaties.

President Rodrigo Roa Duterte deserves an accolade amongst us Filipinos for he has met our expectations and that he has kept his campaign promise of real change. During his administration, people sees that he is really armed with his “great political resolve” to carry out reforms in the bureaucracy. He not only sustained high growth and development, but also alleviates poverty and creates more opportunities for all of us law-abiding citizens. Despite some strong opposition from his critics, President Rodrigo Duterte has kept his promise to protect and safeguard his fellow Filipino citizen by continuing his brave and relentless campaign against illegal drugs, corruption in the government, and the criminality during his term. Hence, with that heroic deeds, he indeed has enjoyed the broad and deep public support.

First of all, this PRRD NLP Bibliography can be a very useful resource for NLP clients and researchers who are writing books, articles, research papers, theses, or other types of writing in which they need to locate the appropriate materials to convey important information to their readers. If they give their readers complete credit for all the sources they consulted, they will make it possible for them to locate and read those works, should they so desire.

Conclusion

In conclusion, President Rodrigo “Digong” Roa Duterte (PRRD) has been one of the most talked-about and influential Presidents in Philippine history. His tenure has been a source of admiration and praise for many, due to his unique policies and decisive leadership. The bibliography on President Duterte shows an insightful overview of his tenure and policies as he strives to bring change and progress to the Philippines.

ACKNOWLEDGEMENT

The encouragement, direction, and support of numerous people who, in one way or another, extended or donated their invaluable aid from the compilation's conception to its conclusion made this Special Bibliography possible. His heartfelt gratitude to:

Director Cesar Gilbert Q. Adriano, the Director of the National Library of the Philippines (NLP) for his untiring and 100% support;

Ms. Jennifer B. Dimasaca, Chief of the Bibliographic Services Division (BSD), for her leadership, her understanding during the mentoring and coaching process, her astute remarks and recommendations, which all helped to improve the project's outcome. For inspiring me to persevere with this endeavor and for giving me her complete understanding and support;

The respectable and well-known universities in the nation, including University of Santo Tomas, University of the Philippines, and De La Salle University, whose PRRD resources are accessible through their online public access catalog (OPAC), which we have compiled and included in this compilation; the BSD family and NLP for this wonderful opportunity and for their moral support in seeing this through to completion;

Above all, we are grateful to the Almighty God for His guidance in enabling this work.
