95	Baby Thesis
95	Multi-Media Resources

PREFACE

The study of indigenous peoples is crucial for several reasons. Firstly, it helps us understand the historical and cultural context of the Philippines, which is essential for appreciating the country's diverse heritage. Secondly, it allows us to recognize the contributions of indigenous communities to the development of the Philippines, both in the past and present.

Moreover, studying indigenous peoples can also help us address the challenges they face today, such as land rights, cultural preservation, and access to education and healthcare. By understanding their unique perspectives and needs, we can work towards creating policies and programs that are more inclusive and responsive to their concerns.

There are numerous resources available for those interested in learning more about the indigenous peoples of the Philippines.

This Bibliography includes books, articles, serials, thesis and dissertations, government publications, reference from United Nations, e-resources, photographs, baby thesis and multimedia resources. This can be an essential tool for them in finding the right materials in communicating crucial information to their readers. By providing full details of every source they used, they will enable their readers to find those books and read them, if they so choose.

In view with the above-mentioned, whether an NLP client/s or researchers are writing an article, a book, a research paper, or a thesis, this NLP Bibliography can be an essential tool for them in finding the right materials in communicating crucial information to their readers. By providing full details of every source they used, they will enable their readers to find those books and read them, if they so choose.

This Special Bibliography is a compilation made possible through the encouragement, guidance and support of several individuals who in one way or another extended or contributed their valuable assistance from the conceptualization to completion of this compilation. His deep and sincere thanks to:

Director Cesar Gilbert Q. Adriano of the National Library of the Philippines (NLP) for his untiring and 100% support;

Ms. Jennifer B. Dimasaca, Chief of the Bibliographic Services Division (BSD) for her guidance and patience in mentoring and coaching, as well as for her brilliant insights and sagacious comments and suggestions to contribute for a better outcome of this project. For motivating me to push through this undertaking and who had provided her full support and understanding;

The NLP and the BSD family for this great opportunity and for the moral support in accomplishing this endeavor;

And above all, the Almighty God for His guidance in making this work possible.
