VI. Government Publications	84-90
VII. <u>Electronic Resources / Continuing e-Resources /e-Books</u>	91-126

PREFACE

This compilation of Gender and Development (GAD) Bibliography entails entries which covers from year 2016 - 2022. Delimitation of its coverage is brought about by certain reason that there is already an existing GAD Bibliography which is being previously published by the National Library of the Philippines (NLP), that covered the past years prior 2016.

The concept of gender and development pertains to the development perspective and process that is participatory and empowering, equitable, sustainable, free from violence, respectful of human rights, supportive of self-determination and actualization of human potentials. The primary purpose of GAD promotes women's empowerment and ensure that their full involvement becomes essential in our society.

With such importance of GAD in once daily lives, the NLP promotes to have gender awareness to be open to girls' and boys' choices in learning and development by way of providing the right information that would help them explore who they are, and make connections to people around them, as well as gain self-confidence, well-being, peer acceptance, and social support.

For one, given that women are usually in a disadvantaged position specially in the workplace compared to men, promotion of gender equality implies explicit attention to women's needs and perspectives. At the same time, there are also significant negative effects of unequal power relations and expectations on men and boys due to stereotyping about what it means to be a male. Instead, both women and men, and boys and girls, should be free to develop their abilities and make choices – without limitations set by rigid gender roles and prejudices – based on personal interests and capacities.

On that note, whether an NLP client/s or researchers are writing an article, a book, a research paper, or a thesis, this GAD bibliography can be an essential tool for them in finding the right materials in communicating crucial information to their readers. By providing full details of every source they used, they will enable their readers to find those books and read them, if they so choose.

This **Special Bibliography** is a compilation made possible through the encouragement, guidance and support of several individuals who in one way or another extended or contributed their valuable assistance from the conceptualization to completion of this compilation. His deep and sincere thanks to:

Director Cesar Gilbert Q. Adriano, the Director of the National Library of the Philippines (NLP) for his untiring and 100% support;

Madam Jennifer B. Dimasaca, Chief of the Bibliographic Services Division (BSD) for her guidance, for her patience in mentoring and coaching as well as for her brilliant insights and sagacious comments and suggestions to contribute for a better outcome of this project. For motivating me to push through this undertaking and who had provided her full support and understanding;

The reputable and well-known Universities of the country which has GAD resources available in their online public access catalog (OPAC) such as **University of Santo Tomas, University of the Philippines and De La Salle University** of which we gathered and included their GAD 2016-2022 collections in this compilation;

The **NLP and the BSD family** for this great opportunity and for the moral support in accomplishing this endeavor;

And above all, the Almighty God for His guidance in making this work possible.
